

Energy Efficient Appliance Rebate Program

April 16, 2010 thru April 25, 2010

Spring Financing Special 2010

6-Months Same As Cash

March 1, 2010 – June 30, 2010

Who Qualifies: The U.S. Department of Energy approved the rebates for consumers who buy eligible ENERGY STAR appliances and replace the same type of old appliance that's functional. The Texas program will also offer an incentive to recycle old appliances. You can qualify for rebates for up to two appliances from the approved rebate appliance list below.

Timing: The mail-in rebates will apply to eligible appliances purchased between April 16 and April 25, 2010. The 10-day period will coincide with Earth Day. Offering the program next spring will give retailers time to stock up on appliances, give the state time to select a vendor to administer the rebates, and allow ample time to inform consumers about details of the rebate program.

NOTE - the rebate program will not be retroactive. It will only apply to purchases made once the program officially begins in April 2010.

Rebate Process: Consumers will have an opportunity to reserve an appliance rebate by calling a toll-free number or registering online approximately two weeks prior to April 16, 2010. After the reserved mail-in rebates are awarded, any remaining funds will be rebated to consumers on a first-come, first-served basis. Shoppers will be limited to two appliance rebates and two recycling rebates

Description of Equipment	HSPF	S.E.E.R	E.E.R.	Rebate Amount	Recycling Rebate	Recycling Rebate
