TELEVISED!

~SAVES ENERGY

- ~Improves Indoor Air Quality
- ~Safe and Easy Access
- ~Durable and Long Lasting
- ~Pays for Itself: 1 to 3 years.
- ~No More Mess Every Time Access Is Opened

**Homeowners**  
**can and will agree:**

The Attic Tent insulates & seals folding attic stairs, scuttle holes & knee wall doors all year round! This helps lessen the dust, insulation other materials that comes from your attic into your home. The Attic Tent is also safe, light weight, and easy to use. This allows for easy access and storage, 360 degrees, around the opening of your attic access. Not only does the Attic Tent improve indoor air quality (IAQ), it also improves the efficiency of the air conditioning and heating equipment in you home. The bottom line...
