

SINCE 1952

HIGHTOWER SERVICE, INC

Air Conditioning, Heating, and Electrical Service
606 W. Main Street ~ Arlington, Texas 76010

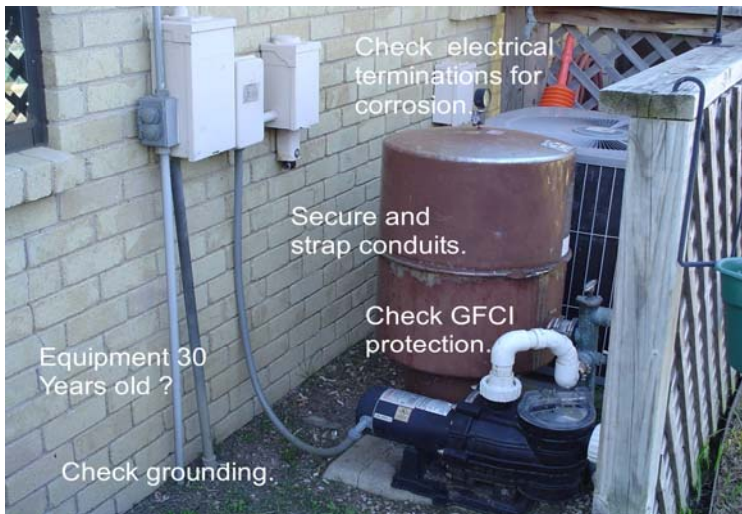

(817) 274-1854

Hightower Service, Inc. can help with an electrical tune-up for your pool equipment. Chemicals and outdoor conditions can create a corrosive environment. Such an environment can create exposed electrical connections, poor circuit connections, damaged time controls, and many other safety and operating related issues.

We will perform a check of all electrical equipment to ensure safe and proper operations. Upon evaluation we will advise of any hazards that may be present and let you know what should be done to correct all of the hazards.

CHECK LIST INCLUDES

- Breaker Protection
- Pool Light Circuit
- Time Controls
- Tighten All Terminations
- Inspect for oxidation and corrosion
- GFCI Circuits
- Grounding
- Freeze Stats
- Secure all Conduits
